

MXR

The Micro Rider

REDUCE COSTS BY UP TO 36%,
INCREASE PRODUCTIVITY BY 43%
AND QUICKLY RECOVER YOUR INVESTMENT!

 **FIMAP**[®]
affordable cleaning

Mxr

Designed to be more productive
because it's small and fast

Mxr SCRUBS
AND DRIES IN THE SAME AREAS
WHERE A WALK-BEHIND SCRUBBING
MACHINE WOULD NORMALLY BE
USED, BUT IT'S FASTER
AND MORE COMFORTABLE

The operator remains comfortably
seated and can easily move in limited
spaces, quickly passing from one area
to another – even in a lift – in total
safety and without having to get off
the machine.

POSSIBILITY TO WORK
AT DOUBLE THE SPEED
OF A WALK-BEHIND
SCRUBBING MACHINE

Take it wherever it's needed!
It can be transported
in commercial electric minivans,
so you can take it wherever you want,
even to the heart of historical town centres.

Cleans perfectly along walls without
any need for manual cleaning operations

Mxr

Designed to improve the cleaning
of small areas

Why walk, when you can ride?

DESIGN

The lowered footboard
and access from both sides make it
safer and more practical.

MINIMUM
AISLE TURN
1540 mm

ADD VALUE TO YOUR
INVESTMENT – CHOOSE A SCRUBBING MACHINE
THAT LOWERS MANAGEMENT
AND USAGE COSTS THROUGHOUT ITS LIFE-CYCLE

- it requires little maintenance
- it is built with top quality materials
- it uses waste-reducing technologies
- it scrubs more square metres in the same time
- it can be used anywhere, at any time
- it is comfortable, safe and user-friendly

MXR

Mxr

Designed to offer
a new driving experience

Ergonomic steering wheel
with controls and display
to make driving intuitive and safer,
because the operator isn't distracted and
the scrubbing functions are activated
without ever leaving the driving wheel

QUALITY DESIGN IN EVERY LAST DETAIL

Steering is light and smooth,
so it can be manoeuvred and used
in even the most congested areas
and the narrowest passages with the minimum effort

USER-FRIENDLY DIGITAL DISPLAY

Mxr

Designed to increase safety
and to protect operator health

EMERGENCY STOP

Immediate machine stop, just by pressing a single button

Low centre of gravity
and excellent weight distribution,
to ensure the utmost stability
even on slopes

Automatic reduction of speed on bends

ANTI-OVERTURN BUMPER

54 dB (A)

With Eco Mode button on
(Device to reduce noise level)

The low sound level – 54 dB (A) – means
the machine can be used anywhere,
at any time, without disturbing the people
nearby and safeguarding the operator's health

Can be customised
with accessories to
increase productivity

SAFETY BRAKE
Automatic machine stop
when the pedal is released

Mxr

Designed to respect the environment

Mxr aims to offer reduced environmental impact, in both the production and usage phases. It is designed using the least range of materials and concentrating on those that can be recycled, making end-of-life disposal easier.

Mxr needs less packaging, thereby rationalising the transport phase, and uses technologies that limit the waste of water, chemical product and energy.

Mxr is built in line with the standards of official certifications, guaranteeing low noise and disturbance levels to safeguard the environment and to ensure operator safety.

* In specific tests vs walk-behind machines

Mxr

Designed to keep the investment value
high over time

No tools are needed for daily maintenance

The elements requiring daily maintenance can easily be identified by their yellow colour. At the end of his work-shift, the operator can quickly see which parts need sanitising, without wasting any time. This increases machine efficiency and keeps its value high

FFF (FimapFastFill)
Quick filling
of the solution tank

All the components are protected inside the machine unit. This means less risk of breaking in case of accidental impact, avoiding additional repair costs and ensuring a longer working life

Measuring cap,
to add the proper
detergent percentage
